

Skiers Responsibility Code

Please read all signs. Use common sense.

1. Always stay in control and be able to stop or avoid other people or objects.
2. People ahead of you have the right of way. It is your responsibility to avoid them.
3. You must not stop where you obstruct a trail or are not visible from above.
4. Whenever starting downhill or merging onto a trail, look uphill and yield to others.
5. Always use devices to help prevent runaway equipment.
6. Observe all posted signs and warnings. Keep off closed trails and out of closed areas.
7. Prior to using any lift, you must have the knowledge and ability to load, ride and unload safely.

Know the code; it's your responsibility.

This is a partial list... be safety conscious.

Safety & Inherent Risks

This is a winter environment, with many inherent natural and man-made hazards, both in and around the resort's facilities and on the mountain. Such hazards exist and may or may not be marked. Poles, flags, fencing, signs and padding are for skier awareness and are not a guarantee of safety. Weather and snow conditions are constantly changing. It is up to you to be aware of these conditions and ski in control to avoid obstacles and hazards, whether they are marked or unmarked. Avalanches are an inherent risk of skiing. Deer Valley's efforts reduce the risk of avalanches; however, avalanches may occur at any time both inside and outside the resort's boundaries. Deep snow and tree wells can create a suffocation hazard. Do not ski alone. Trail ratings on this map represent the degree of difficulty of trails at Deer Valley and may be different than other resorts. Trail difficulty can change as weather and snow conditions change. Deer Valley features many gladed tree skiing areas. Consult a Mountain Host or Ski Patroller for guidance before entering these areas.

If you are involved in a skier collision resulting in injury to any person, the law requires you to stop at the scene and render reasonable assistance which may include notifying resort personnel or warding off other skiers while waiting for aid. The law also requires you to give your name and permanent address to a resort employee before leaving the vicinity of the collision. The mountain is closed to winter sports activities except during operating hours. During operating hours, it is against the law for any skier to enter a closed area inside the resort.
